

NATIONS JOINING TO SAVE CHINA

STAND OF NATIONS ON NAVY DECREASE DETERMINED EARLY

HANDS REVEALED EARLY IN LIMITATIONS CONFERENCE.

ENGLAND SINCERE Seeks Real Decrease of Arms; Alliance to be Bargaining Point.

By DAVID LAWRENCE.
Copyright 1921, by Janesville Gazette.

Washington—Governments do not usually show their hand early in an international conference, but enough has developed here already to determine what the general course of the various nations is to be. Now that the public sessions are temporarily at an end, it is important to know the principles and motives which are guiding the different powers in the secret committee meetings where after all the real conclusions will be reached.

Bernard Shaw once said: principles are always easily settled, but it is the details that cause divorces.

Here is an outline of what the different powers are aiming to do and the question of shipyards for replacement and repairs will give little difficulty.

Anglo-Japan Alliance.
As yet nothing has been said publicly about the Anglo-Japanese alliance, but the British delegations know the American view. Great Britain appears ready to give up the Anglo-Japanese alliance, but will use it as a bargaining point to gain from the United States either an understanding about the funding of war debts or matters. The probabilities are that the British themselves haven't decided the point, but they do know the United States is eager to have the alliance abrogated.

Quiz Officer of Milk Firm
Madison.—Hearing to determine facts in the case of the famous milk law, passed by the last legislature, opened Thursday before Judge A. G. Zimmerman of the Dane county court, acting as special referee for the state supreme court.

The Carnation company is attacking the constitutionality of the law which prohibits manufacture or sale of milk compounds made of skimmed milk and cream out of Wisconsin. Claim is made that the product is a wholesome food the sale of which cannot constitutionally be prohibited. Products are sold fraudulently as detrimental to the health, and are a misrepresentation.

Paul R. McKee, secretary of the Carnation company, who stands throughout the morning was examined by R. M. Hoyt, deputy attorney general, who tried to establish that the milk product is being sold in Wisconsin for condensed whole milk.

Application of the law is being held up pending outcome of the present case, which is now before the supreme court.

MAN CAUGHT HERE FOR WAUSAU HAS WHISKEY FLAVOR

Carrying with him a pint bottle of a heavy liquid used for the coloring and flavoring of whiskey, Paul C. Olson, 50, was arrested at the C. & N. W. depot here Wednesday night by Patrolman Patrick Stein as he stepped off a Pond de Lao train. Olson is wanted in Wausau on an unauthorized charge, and is being held in the city lock-up pending the arrival of Sheriff Fred E. Schroeder.

Olson got the wrong man, mistaking a man in a crowd of workers. The first was just leaving the Crawford avenue station, when the second crashed into it.

CARROLL GIVEN 2-YEAR SENTENCE GOES TO WAUPUN

JUDGE GRIMM SAYS VERDICT HAS HIS FULL ACCORD.

MENACE TO CITY

Carroll Guilty of Driving Auto When Intoxicated—Butler Was Killed.

John Carroll was sentenced to two years in Waupun by Judge George Grimm on Thursday, after Carroll had been found guilty by the jury trying the case in the Rock county circuit court. The verdict was returned after two hours deliberation, the case being closed and in the hands of the jury at two o'clock.

The sentence carries with it the recommendation that Carroll serve at least one year in the state's prison and then be released under the state board of control for the other half of the sentence. Carroll was convicted of driving an automobile while intoxicated, having been arrested following the accident April 22 on the Beloit road in which William Butler was killed.

Crime Overlooked.
When called before the bench for sentence, Carroll still insisted that he was innocent of being intoxicated at the time of the accident.

"I was not intoxicated," he stated. A plea for clemency was made by Attorney E. H. Ryan after Judge Grimm had overruled his motion for a new trial. The verdict and the holding of a new trial.

"The verdict of guilty has my full accord," stated Judge Grimm. "I am convinced that this defendant was under the influence of liquor so as to result in some negligence. The driving of an automobile by an intoxicated person is a menace to the highway and must be curbed. The defendant has committed wilful perjury in stating his innocence. He is a menace to the highway and must be kept in the interpretation of the law."

Board to Decide on One of Three Road Programs

A definite program of concrete road building will be established by the county board during the present session, laying down agreements as to which roads will be built and in what order. Plea for the adoption of this program was made by Highway Commissioner Charles E. Moore in his report to the supervisors Thursday.

GENERAL DIAZ NOW HEAD BIG CHIEF OF INDIAN NATION

Chief of the Crow nation.

GEN. DIAZ OF ITALY.

Washington.—General Diaz is now more than generalissimo of the armies of Italy. He is head big chief of the Crow nation.

Chief of the Crow nation, General Diaz, was elected by the tribe assembled by Chief Rod Neck and White Faced Bear, Wednesday adopted the generalissimo into the tribe with appropriate ceremonies. They did a dance of adoption, chanted three songs with tom-tom accompaniment, dressed the generalissimo in tribal costume trimmed with ermine and beaded his head with a few feathers. He then placed a necklace of beads around his neck and gave him a pipe.

Then in conclusion, the old chief gave the generalissimo his own name which, in Crow, is A Chee Ohsa.

General Diaz said that, when he was a boy, he read and dreamed about American Indians, but never thought he'd be one.

Colorado Mine Country Under Martial Law

Denver.—Martial law was in effect in Huerfano county Thursday.

State rangers took charge of law enforcement after the strike broke out the time set by union leaders for a strike in 13 mines of the Colorado Fuel and Iron company, employing 3,500 men. Reduction of 30 per cent in wages, effective Thursday, was the signal for closing the mines by a walkout. J. P. McLennan, president of district 16 United Mine Workers, announced Wednesday.

The strike was to be effective in 13 of the 26 mines owned by the company. McLennan declared the other 13 mines would be closed by a sympathetic strike within a few days.

He started the mines are 98 per cent union.

ASHLAND PASTOR DIES

Ashland.—W. J. Calfe, pastor of the Ashland Methodist church, died Wednesday night at the Waukesha sanitarium, where he was taken Thursday following an attack of inflammatory rheumatism. Mr. Calfe was 62 years old.

After Princeton, George was appointed of Bishop Mitchell of Minneapolis, who visited Ashland two weeks ago.

BY SHEER EFFORT HE WON A PLACE FAR UP THE LADDER

You don't have to be without a college education just because your father hasn't the money to send you to school. At least, George, Morton never thought so. His father ran a livery stable, and when motor cars brought bankruptcy, George worked his way through Princeton. And not only did he stand high in his studies, but also he won enviable honors on the football field.

Perhaps, though, young Morton's is not a typical case, for he was goaded to achievement by the sting of a beautiful and wealthy girl's contempt.

After Princeton, George continued his drive in business, through doors that had to be forced open, over barriers, on to the top.

The title of "Wadsworth Camp's story," "The Guardian Heights," which begins in The Gazette, Saturday, Nov. 19, is a symbol of the places held by wealth and position; and Campt tells how a man not born to them won them by bitter effort.

Natives Riot When Bombay Greeted Prince

Bombay, India.—Coinciding with a peace conference, the Prince of Wales through the city Thursday, serious disturbances occurred in the native quarter, attributed by the authorities to agitation by followers of Mahatma Gandhi, the Hindu non-cooperation leader, resulting in a number of casualties. The procession itself, however, was not marred by any untoward incident.

SIX KILLED AS AUTO JUMPS FROM BRIDGE

Johnstown, Pa.—Six persons were killed here early Thursday morning when the automobile in which the Prince of Wales was traveling jumped from the guard rails of the Woodvale bridge spanning the Pennsylvania railroad cut and fell to the tracks 50 feet below, according to reports received at the office of Deputy Coroner Scott. The car overturned as it fell, pinning the passengers beneath it, killing six of them instantly. It was reported.

FRANCE PROPOSES PLAN OF AID FOR CHINESE NATION

MUTUAL SACRIFICE OF PRIVILEGES IS SUGGESTED.

OPEN DEALINGS

Briand Against Secret Negotiations on Far Eastern Questions.

Washington.—Heads of the delegations of the nine powers, participating in discussion of Far Eastern questions at a meeting Thursday, decided to proceed first with the consideration of problems relating to China before entering on other Far Eastern questions.

The French attitude in a general way toward the Far Eastern proposals of China was set forth after a two-hour conference of Premier Briand and other members of the delegation Thursday as follows:

First—France desires earnestly to aid China in realizing her aspirations, territorial, political and commercial.

Second—France would give up Kouang Techen, which she leased from China in 1898, provided Great Britain would give up Hong Kong, and Japan, Shantung, leased by the Germans at the same time, and the Port Arthur peninsula.

Third—France would not be willing to surrender her extraterritorial privileges were other powers willing to do the same.

Fourth—The French colony of Indo-China, but to Annam, consequently Indo-China, the great French colony with 25,000,000 inhabitants, would not be ceding the question, according to the French point of view.

Fifth—France approaches the discussions of Far Eastern questions in a friendly way, with the hope of securing the greatest benefit, need for expansion and for raw materials.

Sixth—France is for open dealings of the powers with China, and against secret negotiations.

Down to Brass Tacks.

Preliminary reconnoitering gave way to more direct negotiation Thursday.

The 30 points presented Wednesday by the French, which formed the basis of Thursday's exchanges, which were designed to bring the powers to a general understanding of the nine delegations. No one expected this process to go far at Thursday's meeting, although the discussion of a program was considered. They would begin to discuss the details of the relative importance of the topics before them.

The opinion of the American delegation, which appeared to have considerable support among the representatives of the other powers, was that the Far Eastern negotiations need not be complicated by the subject of extraterritorial rights. The American delegates take the position that the Far Eastern questions are not technical subjects requiring the prolonged scrutiny of the powers. They would be glad to see the big nine, or the full conference, go directly to work without parading out branches of the task to sub-committees that are absolutely superfluous.

Two Subjects Linked.

With Thursday's meeting, the Far Eastern discussions and those relating to armaments and disarmament are entirely independent paths, and there was a growing impression that, sooner or later, all the interested nations would come around to the view that the two subjects are not inseparably linked. The United States, from the first has felt that solution of the Far East questions would be a great step in preserving peace.

The British suggestion that, each of the naval powers retain at least one naval building yard capable of turning out one ship a year does not.

ARIZONA SEEKING ROCK CO. CATTLE

Southwest Buyers Want 300 Head; Craig Buys Valuable Sire.

Fame of Rocky county cattle received two big boosts this week, one through an order for 300 head of cattle from Arizona buyers and the other of the purchase of herd sire by J. A. Craig for his farm "Craighurst."

Attending the Waukesha sale, Mr. Craig bought "Sir Pictet" from the famous Pabst farm, for around \$1,200. The animal is 16 months old and with an excellent record backing him. He was sired by "Creator," the Pabst farm senior herd bull, and the dam, Pabst Sweet Clover, having a production record of 34.79 pounds of butter fat.

The record stamps the young animal as one of the best in the state and one of the leading Holstein herd sires for Rocky county.

D. Ashland has received an order from several Arizona buyers looking for 200 good grade Holsteins, 50 Holstein spring calves and 50 Guernseys. The buyers will be here in December to look the stock over.

This is the biggest order the county ever has received, through one agent and clearly indicates the worth of the county, working as a unit as a sales medium, breeders all putting their stock up for sale.

The Arizona buyers had heard of the quality of stock here and placed the order subject to their inspection.

Oust Howat from Union

Pittsburg, Kan.—Alexander M. Howat, 29 years of age, was ousted from the Kansas coal fields as no longer a member of the United Mine Workers of America.

The Kansas leader Thursday stood automatically and permanently expelled from the organization, with reinstatement possible only through action by the executive board of the international union.

Howat, arrested in jail at Columbus, Kan., where they are serving sentences of six months each for violating the state industrial court law by calling strikes in an industry regarded as essential to the public welfare.

Expulsion of the officers was definitely announced late Wednesday by Van A. Bittner, Pittsburg, special representative of the international union, who also said he would proceed to suspend from membership approximately 4,000 Kansas miners who have failed to obey the terms of an agreement by the international to end the present strike in Kansas and go back to work.

Admission Class Meets—Health conditions in the city were studied at the meeting of the Admission Class held Wednesday afternoon at the home of Mrs. L. G. Culpepper, 206 Madison street.

Mrs. Emma Harvey, city nurse, described her work among the poor and needy of the city, and in connection with such cases. She praised the loan closet established in the city hall by contributions from the women's organizations and said that its contents were invaluable in relieving suffering. Miss Alice Glenn, Red Cross nurse, said that her work in the city was to keep the 2,500 school children of the city well, and to do that, yearly inspections were held in the school, and some follow-up work was done. She thought that the loan closet had been of great value in building up the resistance of the children against disease. The County nurse, Miss Anna Luchter, said that she had the children of 142 one room schools, 17 two room schools and the village schools of Evansville, Milton, Milton-Vel, and Oakville to look after. She also had the unsanitary conditions in the smaller districts to combat, and the ignorance and indifference of parents to consider in her home calls.

Several dependent children had been placed and widows with mothers' pensions were looked after to see that their allowance was wisely used for the children of the home. Mrs. Ludwig, social worker, briefly outlined some of the details of the health program being put on in this county by the state board of health. This included the educational features and the follow up work necessary to make it effective. The program was in charge of Miss Philomena Peterson. The hostess assisted by Mrs. James Dennison and Miss Louise Hansen served refreshments at the close of the afternoon.

She expressed her delight for them and declared that she would hereafter discard her Japanese kimono in favor of the dress of American women.

Booze Running from Canada Is a Regular, Steady Business

Booze can be had in British Columbia in the liquor commission stores, and for export purposes, in one of the many export liquor houses doing business there. In fact, up in the Canadian Rockies a dark-haired young girl got aboard the train, in the open observation car, which was attached to the train at Fields, where she was a Spanish-born girl who found herself in the same seat as a man who was going to Vancouver to join his mother, who had married an American some time before. William Stevens McIntire in Seattle's "The Machine" made several trips. It could not be stopped here and was never caught in the United States. I personally have made over \$10,000 in the last two years and if I don't make \$200,000 this year it will be because I drop dead before the year is out."

As long as there is a wet province in Canada or a wet state in Mexico there will be at least wet spots in the United States of America. You can build stone walls from coast to coast along the border and man those walls with an army of prohibition enforcement agents standing elbow to elbow, but if there is liquor on one side of that wall it is only a question of time—and a short time at that—until part of that liquor will be on the other side of that wall.

At one time I had much to do with scanning mail—chiefly old skippers and males. I clearly recall their testimony to the effect that there was no way of looking up or guarding alcohol on a ship that could prevent the crew getting to it. The late Morgan Robertson, the famous writer of sea tales and himself a sailor, once wrote a story with that incident as the basis, and in talking of it with me said that he was willing to bet his life that no skipper could make a trip around the Horn and keep intact even a pint of alcohol aboard his ship. In support of this contention a navy officer recently declared that no safe was ever built which could hold liquor aboard a ship at sea. If it is there some man aboard will get it somehow.

There is no stone wall along the Canadian border and the enforcement officers are not standing elbow to elbow to guard against the inflow of liquor from our northern neighbor. And my! How the liquor flows in! The Canadian border today is practically obliterated by the tracks of the "baggers"—which are for the most part wheel tracks—and the effort to stop the traffic is an expensive. Liquor in the United States might be a little more plentiful, and a wetting change if the attempt to stop the traffic across the Canadian border were given up. This is personal opinion, of course, but I don't think it would be much more plentiful, nor that the price would drop a dollar a quart.

Canadians are not in the least interested in stopping booze from going into the United States. Officials, of course, are not to be quoted to that effect, but if smiles speak true and a shrug of the shoulder is correctly translated, most of them subscribe to the sentiment expressed by a Canadian in Montreal as follows: "We are not interested in protecting the morals of another country."

"This," she said, "is Dad."

"Dad," he said, "and down and talked. I discovered that he had been a construction engineer on the Milwaukee Road to the Coast at a time when I had been battling around that section of the country. He asked me what I was doing in Vancouver and I told him."

"How are you getting along?" he inquired.

"Having luck on everything but the booze story," I explained. "Hard to get anything definite on that."

"What do you want?"

"Anything I can get."

"For what?" he asked. "You cut. I am one of the fraternity."

"What do you mean?" I gasped.

"I mean that I am a bootlegger."

"Honest? I pledge my word!" That is exactly how it happened.

"Go to it," I begged.

"The little daughter never knew it till tonight," he said apologetically. "But I have been at it from here for the last two years. I got tired working for a living about two years ago and decided to make some money. I bought in an export liquor house up here and I am, for the most part, a legal bootlegger. We are permitted to sell for export. Suppose that we sell 2,000 cases for export to Australia. We make the sale to the legal export of a schooner bound for Australia. Everything is regular. We have a right to sell that liquor. The vessel puts out to sea and some one along the Washington, Oregon, or California coast, motor boats come out and take the stuff off. We help that? Certainly not. Can the captain of the schooner help it? If any one says anything they are told that it was an act of piracy on the high seas. Do the owners of the motor boats ever get caught? If they do it's a miracle. You know, I am a successful bootlegger and a successful for there half the time. What a chance!"

"It goes down from here secreted in lumber cars that are not panned at the border. It goes over in automobiles which are not searched if they go the right roads, and pay money to the right people. It even goes across in airplanes, and the police here can't do a thing. Recently an airplane landed near the city along with a ferry and men began loading liquor into the airship. The police near there pined in to the chief and asked what they should do. 'Where is the liquor going?' the chief asked."

"To the United States," the officer replied.

"You can't do a thing," said the chief. "The liquor is being exported and export is legal."

"The machine made several trips. It could not be stopped here and was never caught in the United States. I personally have made over \$10,000 in the last two years and if I don't make \$200,000 this year it will be because I drop dead before the year is out."

Red Cross Is Doing Much in Wisconsin

The chapters of the American Red Cross in Wisconsin are meeting their obligations to the ex-service men as shown by carefully prepared statistics during the last year. In giving aid to 50,000 World War veterans, \$154,000 has been spent in Wisconsin's 85 chapters. The assistance has not only been office help to the men in connection with their government claims, but has included attention to patients in hospitals, relief to families and personal service which the government is unable to undertake.

Wisconsin has contributed to date, through its Red Cross chapters, \$2,345,45 toward relieving the victims of the Pueblo flood. It has also organized classes in home hygiene and care of the sick, 2556 persons having received certificates for completing the course. It has conducted classes in nutrition, food value, first aid and life saving. More than 500 persons in the state have received certificates for completion in the course of first aid and 30 residents have passed the requirements for entrance into the Red Cross Life Saving Course.

"Militarism Must Get Notice to Quit," Says British Delegate

Lord and Lady Lee of Fareham, photographed since recent arrival in United States.

Washington—Lord Lee of Fareham, first lord of the British admiralty and one of England's delegates to the arms conference, who has just arrived at Washington with Lady Lee, is optimistic over the outlook for success of the party. In an interview he said:

"The world has learned that militarism wherever situated and now ever-increasing must be given notice to quit. That is what brings us to Washington, and if, as I trust, we all go there in a spirit of mutual respect and sincerity, but of fixed determination to convert the president's lofty aspiration into a practical working agreement, the war, which will not have been fought in vain."

Constant Good Will Result.
"So far as I am concerned—and here I speak not only as the responsible head of the British admiralty but as one of the official delegates—I come in a spirit of quiet confidence that the results of this conference will be such as to justify President Harding's far-sighted initiative and personality. I am not prepared to say and am not prepared to say that the world was afflicted with an incurable insanity and could not be restrained from suicide.
"The greatest needs of mankind today, and for the future, are peace and that relief from the burdens of war which peace ought to bring. No one recognizes this more clearly and fully than the British government and people, and none have given greater proofs of their sincerity in the pursuit of these high objects. By their bold and, so far, lonely lead in reduction of naval armaments, by their frank acceptance of the principle of equality with America in the matter of naval strength, as also by their present policy of consultation and concession in Ireland, they have made it clear to the world that they not only seek peace but pursue it."

It is in this same spirit of practical endeavor that the British delegates come to Washington resolved that—short of compromising the safety of the empire of the sea—security upon which its very existence depends, a betrayal of our ancient heritage of which they could never be guilty—there will go to almost any length to meet the other great naval powers in a mutual and proportionate effort to relieve our respective peoples from the intolerable burden of competitive armaments.

"That is all I have to say about this conference at this time, nor would it be respectful to say more in advance of its actual meeting. As to the personal side: Ever since I first came to America, nearly thirty years ago, and long before I even entered public life, my highest and most persistent ambition has been to contribute something practical to the cause of closer understanding and co-operation between the English-speaking peoples. This has been due not merely to the admiration of expediency but to an ineradicable feeling of friendship for the American people and an instinctive understanding of their point of view. My intimate association with them and their armies in the field during the Spanish-American war brought home to me the essential truth of Theodore Roosevelt's words that the English-speaking peoples are really one when either is threatened from without, an axiom which was amply confirmed in the closing years of the great war."

TWIN SISTERS; IN LOVE, SETTLE ISSUE BY DEATH LOTTERY

[BY ASSOCIATED PRESS.]
Geneva—The love tragedy of twin sisters who drew lots for death by poison, became known recently in the Innsbruck courts when one of them was tried for murder. She was acquitted after she told her story.
The girls, daughters of a farmer named Goldschmidt, fell in love with a former Hungarian officer who was unable to distinguish between the girls and courted both, thinking he was always with the same sister. The officer, when he realized the situation, asked the girls to decide which should marry him.
They solved the problem by preparing a glass of water and a glass of poison. They drew lots and the loser drank and died. When the surviving sister was arrested, the officer disappeared.

BOARD TO DECIDE ON ONE OF THREE HIGHWAY PROGRAMS

(Continued from Page 1.)
Janesville to Milton Junction. This would not allow for the building of the outlying ends of the roads to connect with the county line and make a complete system, rather being an inter-city plan.

The third calls for 52 miles building complete roads through Clinton, Janesville through Evansville to the Dane county line and Janesville to the Green county line to the Green county line and line to Jeddah. This would leave out Janesville-Delavan road and road from this city to Koshkonong. "We can build 80 miles of road for about \$2,100,000 a mile and I am confident that that cost will be reduced materially through reduction in cement costs and other materials. We would like a definite program to make our plans and get the road built," said Commissioner McGowan.

In this summary of costs on the Edgerton road it was reported that the 1.1 miles above Indian Ford to Edgerton cost \$1,776 per square yard. The county bid for this job this year amounted to \$2,554.18 and the cost to the county was \$2,106.97, a saving on having of \$1,418 and on grading \$722, a total of \$8,170.35.

Costs of Paying
The bid price last week for the 6.1 miles south of Indian Ford was \$168,856.35 and the county cost for paving was \$114,159.45, a saving of \$54,696.90 on culverts a saving of \$2,908 and on grading \$7,402.47. The county saving to the county of \$61,067. The cost of the 7.2 miles built this year amounts to \$1,573,845.45 and the total cost per mile amounts to \$223,223.93 and the saving to the county per mile is reported to be \$19,633 as compared to the contractor's bids. The report was filed and Friday.

view. morning the highway committee will bring in recommendations on the 1922 program.

Here are the three alternate plans:

First plan.

The first plan is for building entire system of 100 miles of concrete roads, as follows:

\$1,226,000 balance bonds.

\$30,000 federal aid just appropriated.

\$100,000 assessed against municipalities.

\$200,000 will be saved in maintenance on years.

\$150,000 state aid funds, trunk line system available in ten years.

\$150,000 will build balance of system at \$1,000 per mile.

Second plan.

\$1,125,000 balance bonds.

\$80,000 federal aid.

\$75,000 assessment against local units of government.

\$1,280,000 will build Beloit-Clinton road to village of Clinton.

Janesville-Milton road to Evansville.

Janesville-Delavan road to Emerald Grove.

Janesville-Brookfield road to Oshkosh.

Janesville-Koshkonong road to Milton Junction.

making approximately 56 miles of roads.

Third plan.

12 miles Beloit-Clinton road.

12 miles Janesville-Milton road through Evansville, county line.

12 miles Janesville-Delavan road.

12 miles Janesville-Brookfield road.

12 miles Janesville-Koshkonong road.

making approximately 56 miles of roads.

Fourth plan.

12 miles Beloit-Clinton road.

12 miles Janesville-Milton road through Evansville, county line.

12 miles Janesville-Delavan road.

12 miles Janesville-Brookfield road.

12 miles Janesville-Koshkonong road.

making approximately 56 miles of roads.

Fifth Bid 4 Percent.

There was a combination bid from five banks offering four percent interest, with the usual terms as to payments and bonds.

The bid was not made in a cooperative manner, rather each of the five making separate bids on a basis of desiring 100 percent of the total county funds.

These five banks were as follows:

First National Bank of Beloit.

First National Bank of Janesville.

First National Bank of Oshkosh.

First National Bank of Watertown.

First National Bank of Wisconsin.

The bid of 4.27 percent of the Bank of Southern Wisconsin was high. A move to have this bank named as depository made by Simon Smith, Beloit, was held in motion to have the bid back to the committee for recommendations.

There was considerable discussion with the old arguments coming up, whether the county funds should be kept in one bank, the highest bidder, or be distributed around the county. Many of the supervisors were in favor of the county setting a rate of interest and then putting the county money in each village and city to be used for farm loans—so as to do the greatest good.

Committee of Board.

"The law provides that this county board can do as it pleases in awarding the funds," declared Mr. F. Richardson. "The board in its discretion shall designate the depository."

"I would like to see it scattered over the county where it can be used to the greatest advantage and favor giving it to the five banks," declared Supervisor W. J. Lathers, Turtle.

"Believe and always have, that the county should set the rate of interest and have the banks apply for the money," stated Simon Smith who offered the motion of accepting the bid of the Bank of Southern Wisconsin.

"Proper security of the money is important," stated Dr. C. W. Merriam, Beloit. "It is not large interest we are after for the money is held in trust by us and is furnished by all tax payers. I believe in spreading it around to assist people in obtaining proper credit."

The bids of the other banks were as follows:

State bank of Clinton, 2.98; Farmers and Merchants Bank of Evansville, 2.95; Citizens Bank of Clinton, 3.1; Merchants' and Savings Bank, Janesville, 3; Sewer City Bank, Janesville, 2; Tobacco exchange bank, Edgerton, 3; Second National Bank, Beloit, 3; Grange Bank of Evansville, 3.15; State Bank of Milton Junction, 3; Beloit state bank, 3; First National Bank, Janesville, 3; Bank of Milton and Hyde and Britain Bank, Beloit, 3.

Most of the village banks bid on a part of the total funds ranging from \$10,000 to \$30,000.

COUNTY BOARD HAS DINNER AT FARM

Big Decisions Are Put Over to Friday by Supervisors.

The Rock county board on Thursday adjourned after a business session until Friday—the roads coming up in the morning and county bank depository question in the afternoon—and went to the Rock county farm for the annual dinner.

No session was held in the afternoon but the committees, including the board of equalization, the bank depository committee and special committees on salaries met.

On Friday come the roads, the banks and the first consideration of the budget. The finance committee composed of Supervisors Simon Smith, Beloit, A. Denning, Janesville, and W. A. Crandall, Milton, have been at the budget items. Practice all requests for appropriations in except what will be reported on roads and salaries.

The county board took action to protect its members through a resolution introduced by Supervisor W. S. Perrigo. In the future all road contracts must contain the stipulation that the work be protected, and that the work be protected, and that the work be protected.

The report on the Rock county insane asylum and home for the aged was read by R. K. Overton, trustee, and the statement was accepted.

A total of sums approved for bridge road amounted to \$10,000, \$300, and \$141, this being the county's share.

Protest that the county printing was "too cheap" and a fitting record of the proceedings was made by M. P. Richardson, Janesville.

J. H. S. ROOTERS TO MARCH IN PARADE

Yell-Fest and Parade Led by Band for Beloit Game Here, Saturday.

Members of the Beloit high school faculty, the Milton high school football squad and staff of coaches and officials, members of the Janesville board of education and the principals of the Janesville schools will be the special guests at the Homecoming day celebration here, Saturday.

Announcement of the full program for the celebration was made Thursday by Principal George A. Bassford. Merchants have been asked to decorate in the colors of the Janesville high school, blue and white. The colors of the Beloit high school are purple and white.

A mass meeting will be held in front of the high school at 1:10 p. m. Saturday with the Bower City band playing for five minutes, cheering led by John Austin will follow for three minutes, a talk will be made by City Attorney Roger Cunningham, Jesse Earle, president of the board of education, and Supt. Frank O. Holt.

The parade for the football field will start at 1:30 led by the band. The line of march will be on West and East Milwaukee street to Milwaukee avenue to the fair grounds. Admission being charged for adults is 35 cents and high school students 25; grade school children 15. The game will start at 2:30. Victor Henning will officiate. Referee, Maurice Dalton, Beloit, will be umpire and Paul G. Edwards, Evansville head linesman.

The Beloit delegation is expected to number 500.

Four Women Now on Jury to Try "Fatty"

San Francisco.—For the sixth time since the trial began, a temporary jury was selected Thursday in the manslaughter case of "Fatty" Arbuckle, when Louis Mayer, retired liquor dealer, was passed. But temporary selection was broken again when C. A. Baillentine was excused on a defense secretary's challenge. Mrs. Dorothy E. O'Day, a housewife, was called to the box, making four women seated there.

The court room was crowded, presumably because it was the only room in the city where the jury would be sequestered before adjournment. Arbuckle seemed more alert and hopeful than on any day since the trial began. The defense attorneys, before court began, that two of the doors in his former rooms at the Hotel St. Francis were to be brought into the court by the prosecution for a fingerprint examination. It was in these rooms that Miss Virginia Rappe is alleged to have sustained the fatal injuries out of which the manslaughter charge grew.

BRAUNTON TO SPEAK HERE SUNDAY NIGHT

Dr. Melvin A. Braund, president of Beloit college, who spoke here Wednesday at the dinner for members of the county board at the Rock county Teachers' training school will speak here again Sunday night at the Congregational church on "Disarmament, the Great World Issue of Today." Special music will be given by the church choir. The meeting is being held under the auspices of the Men's Bible class. Former State Senator John M. Whitehead will give a short introductory address.

"A PLAGUE ON BOTH YOUR HOUSES."

Just how far it will go and where the controversy between the governor of the sovereign state of Wisconsin and its attorney general will wind up, is of deep concern to the people of the state. Most of them are not particularly interested in the personal affairs or ambitions of either. It is fairly well known that there never has been any love lost between the governor and the attorney general. Mr. Morgan, along with a hundred thousand or more other republicans in the state opposed the election of Mr. Blaine. At times since there has not even been armed neutrality between the governor and the attorney general. The office of the governor has been the rallying point for all the interests that he fathered as a candidate and the office of Mr. Morgan has been another center for attack formation for the opposition. Mr. Blaine has gone to the public for the purpose of going after Mr. Morgan. He has claimed that Morgan in his capacity as attorney general has been lax in the prosecution of the price-fixing and profiteering suits. Mr. Morgan aptly retorts that Mr. Blaine's record of two years in the office of attorney general does not disclose that he, Blaine, ever did anything in that line. He adds a detailed statement as to what the office of attorney general is doing to carry out the wishes of the legislature in the trust suits hanging delay on the governor.

After reading the two letters, the governor and the attorney general's, one gathers that they are not at all friendly and that the business of the state is being held up because of personal and political peevishness and ambitions of both. The governor is governor and it would seem that he should remove the chip from his shoulder which he has carried for so long and get down to business, rather than to play a serial drama of politics. And to Mr. Morgan it might be said also that no matter what the precedent, the attorney general's office is not a place to play politics. The personal ambitions of either of these officials do not deeply concern the public. They have been highly exaggerated by the ego of both these officials to the hurt of the state and the high offices which they hold. It is growing wearisome. "What the people of the state want is action and efficiency. In this case the state may well rise and say 'A plague on both your houses.' Give us results, not political tinkering. Later the reward, if one is sought, will be given by the people unhesitatingly.

The name of that Japanese premier sounds like a restaurant ad, Tak-a-hash-i.

THE SUN BEGINS TO SHINE.

The decision of the Modern Housing Corporation to go ahead and complete 54 houses near the Samson Tractor plant is excellent news to the people of Janesville. Rents have not come down in keeping with other things and the need of modern houses at a moderate rent is felt by many of the working people of the city. Also it will be something for the croaker and the pessimist to mull over concerning the General Motors corporation, and its subsidiaries, the Samson and the Modern Housing activities. Janesville has suffered less from industrial depression than many other cities of the state and nation and with any sort of a return to a normal condition will be ready to meet the situation, having everything ready.

REPORTING THE ARMS CONFERENCE.

There are several hundred journalists and a number of high class newspaper men at the arms conference. The highbrows write the glittering platitudes and the interpretations while the newspaper men through the Associated Press and by special wires send the news to the people. And what the public wants is that news just as much jammed into readable space as it is possible for the story to be told. That is what the newspaper man is for and he is doing his work well as is shown by the Associated Press dispatches in the Gazette. He is never known—this newspaper man whose name is legion. But from the typewriter, of one or another comes some of the finest writing ever put on paper. Gazette readers were given a taste of this in the story of the burial of the unknown soldier and in the description printed last Friday of the tomb of the dead man at Arlington. The man who wrote that story was Klara Simpson of the Associated Press. The glory

Washington Entertains the World

By FREDERIC J. HASKIN

Washington, D. C.—Washington, politically the most important capital in the world, in actual physical aspect is but a village compared to the capitals of the other great nations of the world. But crowded into this village right now are the greatest brains of the great nations, at work trying to reach such an understanding that hereafter when international disagreements arise, the recourse will not be to battle.

For weeks delegation after delegation have poured into Washington, and all their attendant experts, clerks, and attaches. As they have come, somewhat or other they have been taken in and made comfortable. The city was pushed to its greatest limits when war came, and an army of clerks had to be assimilated. Despite every effort since then, Washington's population has remained about at the high peak reached a few years ago.

But Washington is used to taking in bigger crowds than it is equipped to handle. Inaugurations have taught people here that there is always room for everyone. These have been brief affairs, of course, but the problem now is the same one on a larger scale and for greater duration.

For many days preceding the actual formal opening of the conference, the official reception committee of the state department has virtually slept in its resplendent high hats. The lives of these men became a seemingly endless succession of going to the Union station, greeting incoming statesmen and experts, conducting them to the facilities of the present hotel, and then to the care of the conference. The formal affair arranged in their honor, seeing them safely ensconced in their Washington accommodations, then starting the whole round over again for other guests.

The state department put the arrangements for the conference into the hands of Henry P. Fletcher, under secretary of state, and former ambassador to Mexico. General direction of the whole great occasion is in Mr. Fletcher's hands, an enormously difficult job requiring the delegation of a great deal of authority to others.

At first blush, it appeared that Washington did not have enough houses and apartments available to enable the whole delegation to stay in Washington. The post office department was called upon, though, and Washington letter carriers, in their daily rounds, checked up and discovered some 800 unoccupied houses. The addresses were furnished the state department, and have proved of great help.

The main delegations and principal experts for the most part have taken over whole sections and floors of hotels. In some instances Washington mansions which will not be used by their owners this season were obtained. The hundreds of clerks have been housed through the cooperation of the post office department, the Washington post office, in particular, the Chamber of Commerce of Washington, and the real estate men here.

Next in importance to the delegations and their attaches came the hordes of visiting newspapermen. Many of these men have come half around the world in order that the readers of their papers, the world over will have first hand, eye witness reports of all that transpires in this most important international gathering.

As a link between the conference itself and the newspapermen, regular Washington correspondents as well as visiting reporters, the state department drafted the services of Philip Patchin, formerly for a long time a Washington newspaperman connected with a New York newspaper. Mr. Patchin, since leaving the journalistic field, served for a time in the state department in much the same capacity. Associated with Mr. Patchin in his work are Henry Suydam and a corps of assistants.

The Washington newspapermen formed an organization to cooperate with the state department in handling the newspapermen here for the conference. This organization is composed of two members from each of the following organizations: The National Press club, the Standing Committee of Correspondents—representing those men detailed at the press galleries of congress—the White House reporters, the reporters regularly assigned to the state, war and navy departments, and those who cover the treasury department. This organization is known as the American Press Council.

The council has conferred with Secretary of State Hughes, and is working in complete harmony with the state department. Mr. Patchin and Mr. Suydam. The council has taken over the handling of credentials, the matter of seating the correspondents at open meetings of the conference, and is interested also in facilitating the work of the out-of-town and out-of-country newspaper workers. The council has interested itself also in seeing that the visiting newspapermen get quarters, and in providing entertainment for them during their stay in Washington.

Going hand in hand with the serious business of discussions from which it is hoped the world may emerge free from the financial burdens entailed by great armies and navies is the business, serious also, of entertainment. Official "parties" of all sorts got under way immediately the first delegation reached Washington. The state department has a hand in this always. Careless seating arrangements at a formal, semi-official dinner would cause envy and bitterness, secret perhaps, but none the less deep-seated. Entertaining function must be met by generous function in return. This side of the conference is taken almost as seriously as if national honor were at stake on the official dining tables.

It is worthy of note that the visiting delegations have the extra-territorial rights accorded to embassies and legations of other powers in the United States. This carries with it many privileges, including that of laughing with impunity at the efforts of the "dry" organizations to make the purchase, possession and consumption of alcoholic beverages a crime.

Rumor has it that the British delegation is best supplied with ornamental liquor and liquors in parliament for the social affairs at which it will be host. Some of the other delegations were a little conservative in their estimates of their needs, but these deficiencies are being remedied rapidly. The story is told that an attaché of the British delegation was shown the wine list brought into Washington by the Japanese emissaries. "I see you don't intend to do any entertaining," the Englishman commented. The Japanese are reported to have quadrupled their stock on this suggestion. Sightings on national characteristics are coming to light as the conference gets under way. The waiters at the big hotel where the Japanese are quartered are confiding to their regular patrons their agreeable surprise at the ease with which the waiters of the Far Easterners are satisfied. When half a dozen are dining together, one Japanese will give an order to the waiter, and the balance of them immediately signify that they will take exactly the same thing. Evidently they expected the order to demand for their sustenance bamboo shoots or bird's nest soup.

While one division of the parade has passed and there is a gap in the line, it seems to be an opportune time to rise and remark something about doing your Christmas shopping early.

of the true newspaper man is in having accomplished a task well—that is the recompense of the soul.

Let it be understood, the League of Nations was a combination for the maintenance of peace by powerfully armed navies and trained armies used to coerce—a League to Enforce Peace with arms. The conference for the limitation of armaments hopes to reach a conclusion that will make war impossible because there will be nothing to fight with, and no incentive to try out new weapons of destruction.

While one division of the parade has passed and there is a gap in the line, it seems to be an opportune time to rise and remark something about doing your Christmas shopping early.

JUST FOLKS

WHEN THE SOAP GETS IN YOUR EYE.

My father says that I ought to be a man when anything happens to me. An' he says that a man will take a blow and not let on it hurts him. Well, I'll give his teeth an' he'll set his chin. An' he'll bear his pain with a manly grin. But I'll bet that the bravest man would cry if ever the soap gets in his eye.

I'm brave enough when I'm playin' ball. An' I can laugh when I've had a fall. With the girls around I'd never show That I was scared if the girls all would. But I've thought for sure I was really dead. But it's worse than that, thinking you're going to die Whenever the soap gets in your eye.

I can get my teeth an' I can grin. When I scrape my cheek or I bark my shin. An' once I fell from an apple tree, An' the wind was knocked right out of me. But I never cried an' the girls all would. But I've thought for sure I was really dead. But it's worse than that, thinking you're going to die Whenever the soap gets in your eye.

When your mother's holding your neck, And you Couldn't get away if you wanted to. An' she's latherin' hard with her good right hand, It's more than the bravest man could stand. If you open your mouth to howl, you get A taste of the wash rag, cold and wet. But you got to yell till your face gets dry Whenever the soap gets in your eye.

A. J. BALFOUR.
Arthur James Balfour, British delegate to the arms conference, was formerly prime minister and has been a leading figure in British public life for nearly half a century.

He is seventy-three years old and famous as a philosopher and statesman. He has been chief secretary for Ireland and held numerous posts in the British cabinet. He was lord of the Admiralty in the British war mission to the United States in 1917, just prior to America's entry into the war. He was a delegate to the Versailles peace conference and has since attended many important conferences held in Europe to solve reconstruction problems.

He is a permanent member of the council of the league of nations and a vice president of its assembly. Mr. Balfour drafted the United States in February last replying to American objections to Japanese and other mandates over foreign lands—notably the island of Yap.

LOOKING BACKWARD

Forty Years Ago

Nov. 17, 1881.—A new fish and oyster house opened on West Milwaukee street today. It is located near the bridge. The owner, Mr. J. H. Gardiner, of the county board of supervisors appeared and recommended that the city provide a lock-up for tramps instead of sending them to the county jail. A committee was appointed.

Thirty Years Ago

Nov. 17, 1891.—Sunday School workers from all over the state are convening here at the Methodist church for four days.—Sun. The street railway company has received orders from the headquarters in Chicago to put the cars in the barns tonight and tear up the tracks as soon as possible. Efforts to have the business men of the city take over the road failed.

Twenty Years Ago

Nov. 17, 1901.—Sunday.

Ten Years Ago

Nov. 17, 1911.—A relief committee has now been organized by the city to care for the needs of the poor suffering from the effects of the cyclone which struck here last Saturday. The city committee is made up of William Bladen, H. P. Bliss, George S. Parker and J. L. Bear. The committee are taking food and clothing to the sufferers daily.

Personal Health Service

THE PURPOSE OF THE APPENDIX
A recent flurry of queries concerning the purpose of the appendix vermiciformis in the human economy suggests that the dependable indicator is still functioning, although like the summoning of a trained nurse, it is no longer a feature of the society customs. The only person who boasts about the extraordinary features of the appendix nowadays is the one who carries the organ preserved in formaldehyde serum in an hermetically sealed paragonically cavity.

When, or if, God endowed the highest, in some ways, member of his mammals with an appendix, no doubt he had an inscrutable reason for so doing. This reason, but being inscrutable, the reason has never been fathomed by any of the mammals, although some members of the furred vermiciformis known as clarks, except to have scrutinized the inscrutable; they assure us the appendix is the oil can of the alimentary machine, and many phantasmagorically called clarks (if you will pardon the crudity), accent the notion as perfectly plausible.

The appendix, however, is a huge failure as an oil can. In fact, I don't believe the Creator intended it for any such purpose, for if he had, it would have placed it in a more strategic position to function. Imagine an automobile engineer placing the oiling system on a little car, and imagine him equipping the thing with an oil tank or reservoir holding one-fifth of a teaspoonful of oil. No, with many thousands of other things, he would not have placed the oiling system, I'll tell the world there's nothing to it. The old alimentary machine does much better without this alleged lubricator than with it. It did the appendix was on the job. It must be that some clutches work better without oiling.

As appendicitis more frequent nowadays than it was a dozen years ago, or is it merely more frequently diagnosed, or is it more widely advertised? The answer to this is yes. It is. We have better newspapers and better medical men, and more intelligent patients, and less wholesome food habits.

Less wholesome is just right. Refined white flour bread is just what we need. Together with other modern evils of the diet it probably offsets the conditions, and environment which favor bacterial infection of the appendix. Bacterial infection

Q. This office applies strictly to information. The Bureau cannot give advice on legal, medical, and financial matters. Write your question, plainly and briefly, and enclose two cents in stamps to cover the cost of the letter. Full name and address. All replies are sent direct to the inquirer.)

Q. What is the thinhead high commission? H. G. D.
A. This is a commission, that is holding the bridge heads on the Rhine and is composed of representatives of both military and civil—of England, France, Belgium, and the United States. The Americans do not participate in the conference, and are consulted by the representatives of the other countries.

Q. What is the meaning of the term "ad generalis"?
A. The definition of this term is "of his, her, its or their own kind; peculiar."

Q. How many people are drawing civil war pensions? M. E. N.
A. The pension bureau says there are 25,000 pensioners of the civil war on the rolls.

Q. How did the game euchre get its name? D. A. L.
A. The name is apparently from the German, "Juch," meaning "joke" which is changed to "joker" as the name of the extra card in the pack. Juch or Ju is an exclamation of joy, which may be associated with the finding of the card known as the joker.

Q. Just what part of a strawberry is the fruit? E. B. N.
A. The department of agriculture says that the edible part of the strawberry is really an enlargement of that part of the stem which supports the flower parts—that is the stem that holds the stamens, petals and pistil inside the fleshy receptacle.

Q. How long does it take things to rot? M. E.
A. The length of time which is required for the putrefaction of an object depends upon the object. Potatoes may take half a year, in fresh waters, or salt waters of brues, seas, or oceans.

Q. How many were killed with Currier on the Little Big Horn? K. L. C.
A. According to the report of the war department, there were 12 officers, 247 enlisted men, five civilians and 120 pack animals killed with Custer on the Little Big Horn. There were two officers and 51 men wounded.

Q. Is there an acid which will dissolve brass?
A. Almost any strong acid will dissolve brass.

Dinner Stories

"Is you boy making himself useful on the farm since he got out of college?" asked the rural neighbor.
"Not yet," said Mr. Cobble, "but I've painted the tractor a bright red, put a big horn on it, and I'm hoping that after a while I'll be able to persuade Sam to drive it occasionally."

"What good," inquired a Plunkville citizen, "does it do to have a performance destined for Broadway open in our small hamlet?"
"I hope it will do a lot of good, comrades," responded the manager of the aggregation. "One of you ministers has agreed to denounce our show roundly."

"Wife has been pestering at me considerable of late to sell out and move to town," said Gap Johnson of Rumpus Ridge, Ark. "The children yelled like catamounts for the chance whenever they happened to think about it. And I was pretty nigh on the point of doing so last month, but just when some fellow told me it was almost impossible to raise cogs in town."

"Rastus," said the judge sternly, "you're plain no account and shiftless, and for this light I'm going to send you away for a year at hard labor."

"Please, judge," interrupted Mrs. Rastus from the rear of the court room, "will you honah jes kinder split dat sentence?" Don't send him away from home, but let dat hard labor stand."

"It's easier to collect a crowd than a dollar for charity."

Modesty is a virtue that many people would blush to own.

SENATE WRANGLES OVER NEWBERRY

Long Debate on Two Year Old Controversy Is Seen in Congress.

Washington—The senate turned its attention Wednesday to the Ford-Kennedy amendment to the two year old controversy, however, was begun without a date for a vote in a sight and with declarations from the whole story must be laid before the country, presaging long debate. Another parliamentary tangle ensued when the resolution declared that the Ford-Kennedy amendment was called by Chairman Spencer of the privileges and elections committee. It required a majority of two-thirds of the senate to determine its parliamentary location, during which indications of bitter attacks on the republican resolution dropped out in democratic speeches. Senator Spencer asked for unanimous consent agreement by which the senate would have voted on the amendment. This was refused. A third calendar day after the Ford-Kennedy amendment was introduced, the debate and exchanges between the two sides, Senators La Follette and Norris, refusing to join in their agreement, finally was made formally by Senator Watson, democrat, Georgia, and Mr. Spencer immediately began a review of the history of the case, and a defense of Mr. Newberry as set out in the majority report of colleagues on the unanimous consent of his committee.

State to Meet Its Share of Federal Aid

Madison—Wisconsin will be able to meet its share of the federal aid appropriation, which amounts to \$1,824,315 next year, under the bill just signed by President Harding, the highway commission announces. This means an increased federal aid building program, and will call for equal expenditures on the part of the state and counties.

Thirteen other states of the country will receive larger federal grants than Wisconsin under the new appropriation bill. Surrounding Wisconsin, Illinois is to receive \$2,246,231, Iowa \$2,102,572, Michigan \$2,249,532, and Minnesota \$2,123,557. A total of \$75,000,000 will be divided among the states, with Texas receiving \$4,425,172 as the largest single grant.

It is estimated by the state treasurer that \$2,000,000 of highway money will remain in the treasury at the end of the present construction year. This will be supplemented by automobile license fees amounting to approximately \$4,000,000, making the total state funds \$7,000,000. Counties are expected to provide approximately \$5,000,000, and will be required to meet the state expenditure of \$1,824,315, making a construction program of about \$15,000,000 for the year.

Schultz May Not Play With Blues in Saturday's Game

PLAYERS FINDING HEAVY FIELD HARD FOR PRACTICING

Flanders field and all its mud must have been transferred to Janesville according to the feelings of the local high school football players. Since the heart-breaking game with Beloit last Friday they have been wading in semi-liquid at the fair grounds.

Announcement was made Wednesday afternoon by Coach Frank Schultz, head of the football team, that they may not play in Saturday's game against Beloit. While his side injury received in the Beloit game last week was not serious, it has been unable to take part in practice. A shift in the line may be necessary.

Coaches are sustaining every endeavor to whip the squad into a fighting aggregation to engage Beloit Saturday. The last of the tongue has been run over the field many times in the past few days whipping the men into a snappy band of scrappers. Not since the Port Atkinson game have the Blues started off at the opening whistle with anything akin to dash.

The add injection of the most severe rivalry of the season is expected to put new pep into the local players.

In the Beloit contest the Janesville boys played a game that would have been a credit to the team of a year ago. There was no organization and until the last few minutes of play not much more individual work. The team went stale.

Friday's victory was a surprise to Beloit. Judging from the comment on the sidelines. But the Tobacco City was drilled daily in the old sentence, "Get Janesville and/or season will have been successful." To their credit they accomplished the task and they did it by good playing.

In the team itself there has appeared a new and greater spirit during the past few days. They are out to do the best there is in them. They realize that Beloit has been improving steadily in the past few weeks and that to beat them they must receive every ounce of power and reserve which they possess.

Saturday's battle will be the greatest of the season. Both teams will be at the top of their form. The Southern Wisconsin hanging in the balance. Neither team has a clean slate but both will want to keep another black mark from being penciled upon it.

The crowd will be the largest of the season. With a parade of fathers and sons and at least 200 from Beloit, the sidelines will be a mass of humanity.

AMATEUR ATHLETIC TROPHIES GIVEN WINNERS THURSDAY

Presentation of trophies to the winners of the annual basketball league of last year, to St. Mary's school, for copying the annual field day of the public schools and to the Washington school for winning the basketball championship will be made at the Y. M. C. A. Thursday night. The meeting is part of the Father and Sons week program. St. Mary's won the basketball trophy.

A short address will be made by the Rev. R. G. Peterson, pastor of the inter-denominational church, St. Paul's, at the meeting. The trophies will be given to the winners of the league.

HUNDREDS OF BADGERS CAN'T GET TICKETS

Madison, Wis.—Hundreds of Wisconsin students are unable to attend the Wisconsin-Chicago game Saturday because of inability to secure tickets. The two thousand seats reserved for students were taken as soon as offered, and long lines of students turned away.

Coach T. E. Jones, who wired Thursday morning that he will be able to fill the needs of those who applied for pastboard, one to each person. Over 10,000 snags have been taken by Badger alumni and students.

The Wisconsin team completes its practice Thursday and will leave for Chicago Thursday night. Every player is in top condition for the contest.

First Fordson Game Dec. 2 With Indians

The Plymouth Indian Aces will be the drawing card on the opening night here for the Fordson light weight basketball team on Dec. 2. Games of the basket men will probably be played on the Calisium rink court if arrangements now under consideration mature. The Aces are composed of seven full blooded Indians.

Revision of the Fordson schedule has been made necessary. With exceptions of 14 players, the local boys will play again here on Dec. 2 when they will take on the Cornells, Chicago, Amateur athletic union champions. This team moved out the Fordson last year, 22 to 20.

A week will be skipped and then the Milwaukee "Collectors," counterparts of Marquette and Carroll players, appear on Dec. 10. The local high school team will be played Dec. 20, following a game here with Fond du Lac.

The season will open Nov. 23 at Junco. On the next night, the team plays the Deaf school at Delavan and on Dec. 1, Woodstock at the type-writer city.

Real practice of the squad will start next week at the Y. M. C. A. It is announced. The five will be picked inside of two weeks, it is planned.

Oust Beloit Grid Captain as Professional

Beloit, Wis.—Jim McCarthy, captain of the Beloit College football team was notified Thursday that he is ineligible for college competition by the College Athletic governing board. The announcement charged Captain McCarthy with playing professional football this fall. McCarthy, it was said, did not deny the charge.

WILL PICK COURSE TURKEY X-COUNTRY

Selection of a course of the Turkey run to be held next Wednesday afternoon under the auspices of the local Y. M. C. A. will be made by the physical committee, Thursday. It will be more cross-country than last year.

Four additional entries have been received, bringing the total to 15. The latest are Kennedy, Perssons, McMillan and R. Pierson. P. J. E. Woods donating the turkey this year. Stupp's meat market gives the goose.

GOPHERS ON WAY TO PLAY MICHIGAN

Minneapolis.—The football squad of the University of Minnesota, left for Ann Arbor Wednesday night, to meet the University of Michigan team in a game there Saturday.

Fathers and Sons in Athletic Meet

About 70 fathers and sons showed their comradeship by joining in an athletic meet at the Y. M. C. A. Wednesday night under the supervision of A. E. Bergman, physical director. It was the first of a four day program which is being held in Janesville in observance of "Father and Son" week.

There were many games and contests in which the athletic prowess of the "dads" featured. They had a wide margin over the sons, who pitted skill against skill. The fathers won a majority of the contests. As one little son said, "the fathers were experienced."

The windup of the evening's program came in a two round fistic encounter between Pugilists J. A. Stiner and J. T. Hooper. The fight was declared a draw by the referee, A. E. Bergman. They apparently did not like his decision, for they united their forces against the pugilistic power of Bergman, who had trained some of the best fighters in the army camps during the war. The battle royal was declared in Bergman's favor when his opponents retired.

Fathers were the honored guests at the meeting of the Hi-Y club Wednesday night and several of the boys brought their dads to the dinner and meeting which followed. The topic of the evening was "Chivalry." Miss Edna Boardley, secretary of the Y. W. C. A. spoke on the subject from the girl's viewpoint. Judge Harry L. Maxfield also spoke.

NATIONAL SKI MEET ON NEW 115 FT. SLIDE

Chicago.—The national championship ski jumping tournament under the auspices of the Norge Ski club, will be held on the new, six river grove slide at Gary, Ill., Jan. 22. A new slide, 115 feet high has been completed and the hill cut away more sharply to permit a longer jump.

St. Johns Wins Military Title

Delafield.—Outclassing their opponents, St. John's Military academy swamped Kemper Military school, 56 to 0, here Wednesday afternoon in a match that decided the championship of middle west prep and military schools. Kemper had claimed the title by virtue of its defeat of Outlaw academy two weeks ago. Last year the Show Me's trounced the Delafield eleven, 41 to 6.

Hoppe and Conti Win Cue Games

Chicago.—Willie Hoppe, world's champion, won his second match in the billiard tournament, when he defeated George Sutton of Chicago, 100 to 274. Hoppe played out in ten innings with a high run of 185 in the last frame.

Roger Conti, French billiard champion, won his first victory in three days when he defeated Jake Schaefer, Jr., 430 to 203.

Conti had previously lost to Willie Cochrane of San Francisco and Willie Hoppe, holder of the championship title.

BASEBALL TIPS

Pensacola, Fla.—Word was received here that the Louisville club of the American association will train here in the spring, the team arriving March 12.

New York.—The Yankees began a new hunt for a spring training camp. Club officials recently received an offer from Mineral Wells, Tex., and sent their acceptance, but a telegram brought word that the Cincinnati club had negotiated a contract to train there, however, the American League champions will train "somewhere in Texas."

Cincinnati.—According to advices from Oakland City, Ind., Ed Housch, the Cincinnati National's grand outfielder and batsman, was accidentally shot by his brother, Fred, but was not seriously injured. The Rousch brothers were hunting near their home.

Magnates owning franchises in All Team's Three-I League will assemble in Chicago Thursday.

5 Badgers Play for Last Time in Chi Battle

[SPECIAL TO THE GAZETTE] Madison.—The Wisconsin team is gradually being keyed for the big game with Chicago Saturday. While Tebell and Brumm were slightly injured in last week's battle with Michigan, they are in shape again.

Richards has used straight football with some forward passing during the season, but this last game should see several trick plays. The Chicago line is strong and aggressive and, for this reason, open work should feature.

Several of Wisconsin's best men play for the last time Saturday. For this reason they will put all they have into the combat with the Maroons. Sundt, Elliott, Brader, Bunge and Gould will finish their conference careers.

PERCENTAGE BASIS MAY RULE MATCHES OF ELKS FIGHT CLUB

Wherever possible, fighters who will appear on the cards of the Janesville (Elks) athletic club at the rink, will be paid upon a percentage basis. The club officials believe this will redound to the benefit of the fans and give them bouts with more dash.

Days in this vicinity seeking a start in the fight game will be given over to possible chance in the preliminaries. It is stated, if suitable opponents can be found, Fort Atkinson, Delavan, Jefferson, Edgerton, Evansville, Beloit, Rockford and Madison boxers will be seen at various times it is planned.

Officials of the club will go to Milwaukee shortly in regard to the opening card. The first fight is Dec. 11.

BELOIT CANCELS GRID GAME HERE

Declaring that "Paddy Barrett's Wisconsin All-Americans would not give them the sort of contest desired," the Beloit Fairies canceled the game with the Edgerton promoters Wednesday. The battle was to be staged at the fair grounds here.

The Fairies will play the Stuyvesant team at Chicago, instead. Twice games have been halted with this explanation, but bad weather caused a postponement.

With the homecoming, game between Janesville and Beloit high schools here Saturday, Janesville fans were paying little attention to the proposed contest with the Fairies.

TEACHER SECURED FOR FRENCH CLASS

G. W. Slaughter, of Janesville, has been secured by J. M. Dorrans as instructor of the French class which has opened as a part of the night school curriculum. Mr. Slaughter was interpreter for the Belgian commission during the war and is a fluent linguist. The second lesson for the class was held Thursday night. Eleven people have enrolled, to date.

"SOUL MATES" OF BOOKS IN EVERY LIBRARY

Taking the saying of A. Krösch, "Every book has its soul-mate," as his keynote, W. H. Solle of The International Book Store, Chicago, talked before a number of people at Library hall Wednesday night of his efforts, as he said, to find the "soul-mate" of each person present and tell those present of some book in which they would be interested. His topic was "Three Score Books and Ten" taken because he talked of seventy books, ten in detail and the others but slightly.

Many others will be on sale. Mr. Solle talked informally in the afternoon to a number of women interested in Children's books. The ten books of which Mr. Solle talked in detail were of poetry, fiction and letters, while the Bookman magazine was also mentioned. The list of 70 included five books of poetry, eight of biography, seven miscellany, 17 fiction, eight essays and five travel books. Many of the books are of recent publication, while others were older books, which will live. A number of books of poetry and fiction, of which few people have heard, were praised by Mr. Solle.

WILL REMEMBER ALL GIRLS, THANKSGIVING

Not a girl affiliated with the Y. W. C. A. will be forgotten on Thanksgiving Day, is the plan of that organization. Arrangements are being made whereby members of the Y. W. C. A. who live outside of this city and who will be here Thanksgiving Day will be entertained in homes in the city. The Girl's Reserve are planning to make a Thanksgiving for others by preparing baskets of food for distribution for the impoverished. The Y. W. C. A. will be open during that day but the secretary's office will be closed.

Footville

Footville.—A Thanksgiving supper will be held on Thanksgiving day for members of the Eastern Star and their families. It was decided at the regular meeting of the order, Dr. and Mrs. Charles Pieco, Janesville, were Saturday visitors at the home of Mr. and Mrs. Thomas MacPherson. Rev. G. W. White will preach a Thanksgiving sermon at the Methodist church Sunday morning. There will be special music given. Mrs. Bayard Andrews, of the "Good Will Industry," Milwaukee will give a talk on the organization is doing. Funeral services for Michael J. Noonan, were held here at the Catholic church Tuesday morning. Interment in the Janesville cemetery. Mrs. Mae Butler, recently returned from a visit with her sister, Mrs. Dori Silverthorn and family, Chetek and her cousin, Bert Dunn and family, Miss. Blanche Quinn, is spending the week in Janesville. Mrs. A. C. Gaarder and Mrs. Leon Spencer are campaigning for the Red Cross this week, and have nearly reached the quota for Footville. Arthur Gaarder has a horse, which is ill. The Worker's conference met Tuesday night with Mrs. Leon Spencer, Miss Lulu Roth and a talk on "Primary Work." Mrs. L. F. Silverthorn on "The Home Department work." Mrs. John Rowland on "The Church Bible school" and Mrs. George Gooch gave a paper on "The Ideal Sunday school." Mrs. Spencer assisted by Misses Frances Howe and Bessie Curry served refreshments. The next meeting will be at the home of Herman Zunkle, Mr. and Mrs. Arthur Gaarder entertained at a six o'clock dinner Monday night. Her guests were Mrs. Blanche Quinn and Mrs. J. J. Spencer and son, Lacey Victor. The dinner was in honor of Mrs. Lacey who will soon leave for California where she will spend the winter. Robert Roehl at

Elkhorn

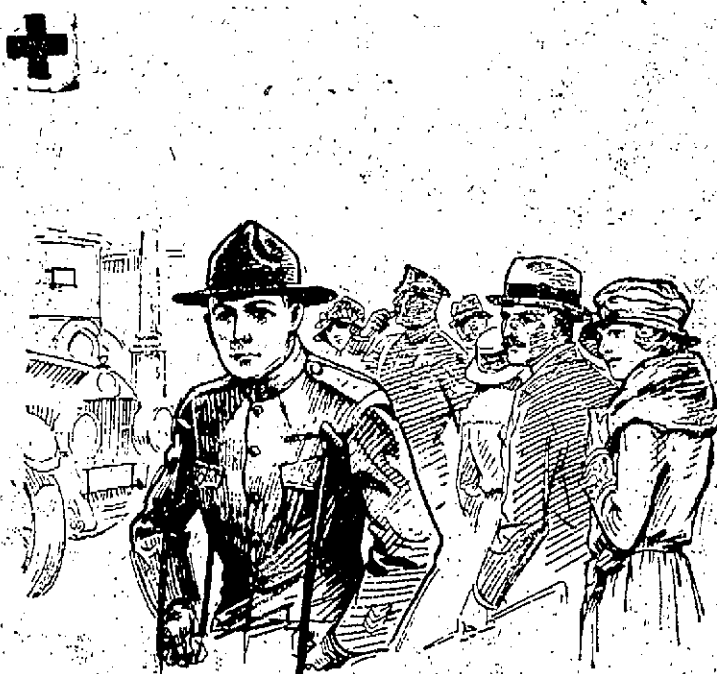

[By Gazette Correspondent]
Elkhorn.—John A. New, Lake Geneva, died Tuesday night from heart trouble. He was a member of the county board and had attended the Elkhorn session during the day. He leaves a family. Sheriff John White is among the hunters who have gone north in search of deer. All members of the county board were present at Tuesday's session except Amos Engel, Whitewater, who was recently injured in a cave-in while excavating for a water main. Harry Charlton and James Stokes are members of the consistory class in Milwaukee this week. Charles Nott and others are also visitors during part of the session. Masonic five hundred players will go to Delavan Nov. 28 for a return match with the players of that city.
